

Platinum vulcanizing agent for extrusion (TN/AB-XXPJ series)

Application >>

- Used for tasteless extrusion silica gel tube, sealing strip, etc.

Characteristic >>

- Tasteless, quick vulcanization, no bubbles, non-sticky surface, good elasticity.

Specification Data Sheet >>

ITEM	Demand	
	TNA/B-25PS	TNA/B-45PS
Appearance	Black solid, no obvious mechanical impurities	
Hardness(Shore A)	40-50	60-80
A Usage(%)	0.6	0.6
B Usage	1. 4-1.6	1.8-2.0
TS2(125°C*3MINS)	10-15	10-15
TC90(125°C*3MINS)	20-30	20-30
Mixed placement life (25°C environment ≥day)	5	5

Application
